OPEN ACCESS

Welcome to the Open Access Project—Where Free Downloads Come With a Free Exchange of Ideas

Did you ever get so excited about an idea that you couldn't eat or sleep?

Did you ever dig through layer after layer of meaning in a Biblical verse?

Does a fine point of law capture your imagination more than a suspense novel?

Do you want to join an adventure of Jewish thought?

Then go to www.YasharBooks.com/Open now and gain free entry to the frontiers of Jewish scholarship.

At the Open Access Project page you can download free articles, essays, dissertations and (soon) entire books online. But that's not all. You can also post your own reviews and critiques and join discussions. You can even submit your own papers for consideration. The idea is to make quality source material available in an Open Access virtual Beit Midrash and stimulate a give and take of ideas. It is an experimental project in collaborative scholarship.

The Open Access Project is still growing. You might say it's in "Beta" version. Join now and help it grow and spread. Read, learn, respond. And tell your friends to join too!
